***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: applicant's acceptable terminal disclaimer has obviated the double patenting concerns. The prior art fails to disclose the specific method of ablating cardiac tissue from an epicardial location which includes positioned an ablating device outside the patient's heart and activating an ultrasonic emitting element at a first frequency for a number of discrete time periods, then activating the emitting element for a second period at a different frequency as set forth in the claims. The prior art generally fails to disclose the use of two different frequencies emitted by an ultrasonic transducer in such a procedure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Peffley whose telephone number is (703) 308-4305. The examiner can normally be reached on Mon-Fri from 6am-3pm.
